Professional Summary

A cybersecurity student passionate about defending and building secure systems and promoting cybersecurity awareness. Also a self-taught web developer, graphic designer, and beginner in French, with hands-on experience in building practical systems. Known for problem-solving, curiosity, discipline, and leadership involvement.

Education

University of Technology and Applied Sciences (UTAS), Navrongo – Ghana.

BSc Cybersecurity (Level 200)

Relevant Courses: Operating Systems, Cryptography, Database Systems, Object Oriented Programming (C++), French

Technical Skills

Programming Languages: HTML, CSS, JavaScript, PHP, C++, Python

Tools: Kali Linux, Adobe Photoshop, VS Code, XAMPP, GitHub, AI tools

Cybersecurity: Basic ethical hacking, penetration testing, Bash scripting

Soft Skills

Problem-solving, teamwork, creativity, discipline, self-learning, leadership

Projects

Mini Shop Management System

Developed a system that helps shop owners manage inventory, track sales, and monitor remaining stock. Built using VS Code and AI-assisted development tools. It improves efficiency in shop management.

Online Voting System

Designed a web-based voting system allowing students to vote remotely from their hostels. Solved the challenge of physical movement to polling stations. Built using VS Code, PHP, XAMPP, and AI tools.

Experience

Intern - St. Agnes Printing Press

Gained hands-on experience in graphic design and printing machine operations. Created designs for clients both paid and unpaid.

Leadership & Volunteering

Course Representative

Member of Parliament – USPH (Student Leadership Body)

Electoral Commission (EC) Volunteer – Developed voting system for department elections

Group Leader in academic and project activities

Interests

Cybersecurity, technology innovation, business development, football

Career Objective

To build secure systems, defend digital environments, promote cybersecurity awareness, and develop tools that improve efficiency in cybersecurity operations.

Professional, serious, and goal-driven candidate.
